PROFUSION

ZINNIA

Sakata's most acclaimed series, Profusion and Profusion Double have won more awards and gold medals than any other series, including this season's new Red Yellow Bicolor!

These go-to zinnias are the top choice for disease resistance and uniformity. Extremely heat and drought resistant, Profusion is excellent for containers or landscapes. Mix any of the colors, including singles and doubles, in packs or pots for added interest. Compact habit and flower quality combined with exceptional vigor and disease resistance contribute to Profusion's excellent performance.
