

SAKATA®

Ornamentals

C A T A L O G

2025 & 2026

INNOVATION *from* GREENHOUSE *to* GARDEN

For over 100 years, Sakata has taken great pride in introducing innovative ornamental genetics that challenge industry boundaries and drive the market forward. Our legacy is to bring peak performance and quality to growers, landscapers, and gardeners.

THE SAKATA MISSION: Build a growing, prosperous business that contributes sustainably to the betterment of life and culture.

Our mission illuminates our continuous quest for global collaboration and market excellence, as well as our efforts to set an industry-leading example in corporate responsibility and purpose. Each Sakata team member lives this mission and the summation of our collective passion is evident in each and every variety we introduce.

Together, we flourish.

SUNPATIENS®

GET MORE WITH SUNPATIENS®!

Trusted by growers, retailers, landscapers and consumers alike, SunPatiens deliver flourishing color in both sun and shade, spring through fall. With 20 years of proven performance, no other annual brings more reliable flower power. It's no wonder SunPatiens has become one of the leading brands in today's marketplace.

SUNPATIENS® THE FULL LINE UP

SunPatiens are available in two distinct series to provide maximum success depending on finished container size and landscape application. Compact SunPatiens are ideal for high-density production, patio pots, hanging baskets and areas where night temperatures exceed 70°F/21°C. Vigorous SunPatiens feature a more robust habit that is well-suited for mass-plantings and work well in cooler climates where stronger growth may be desired.

SUNPATIENS®

IMPATIENS X HYBRIDA HORT | BEDDING

The SunPatiens family delivers unsurpassed performance in the garden! Bred for a mounding, spreading habit, count on SunPatiens to provide:

- Continuous blooming spring through fall
- Sun and shade performance
- Excellent heat and humidity tolerance
- Downy Mildew Resistance

COMPACT SUNPATIENS®

Compact varieties provide strong retail appeal and a smaller habit. They offer the best habit for multi-pack, high-density production. In the landscape, Compact varieties are 16 – 30 in. tall and 14 – 20 in wide.

VARIETY SPECIFICATIONS ON PAGE 19

PLAYLIST COMBO: BOOMBOX BOOGIE

SUNPATIENS®

VIGOROUS SUNPATIENS®

New Vigorous varieties feature even better branching with strong plant vigor and are ideal for cooler regions. Utilize in baskets, containers and the landscape where fast-growing, massive color is essential. Vigorous varieties are 18 – 34 in. tall and 16 – 24 in. wide.

- Utilize in baskets, containers and the landscape where fast-growing, massive color is essential.
- No PRGs needed when grown as directed
- Downy Mildew Resistance

Magic Carpet has been developed through the joint exploration program by a public institute of Argentina (INTA) and Sakata. The benefits will be shared with Argentina in compliance with the Convention on Biological Diversity (CBD).

SUPERCAL[®]

SUPERCAL® & SUPERCAL® PREMIUM

When it comes to garden performance, the SuperCal family is uniquely superior to all other petunias. Part petunia, part calibrachoa, SuperCal combines the very best of both to deliver superior performance and higher satisfaction. SuperCal is the all-weather performer that can stand up to cold and heat. Plus, SuperCal can withstand heavy rains and bounces back with little to no damage.

SUPERCAL® AND YOU!

Known for its large, vibrant flowers and superior outdoor performance, SuperCal is ideal for growers, retailers and consumers.

FOR THE GROWER, SuperCal is early blooming, pH tolerant and ideal for cold-frame/low-energy production. The strong roots help the leaves stay greener in stressful conditions. SuperCal can be grown cool, which really helps on energy savings.

FOR THE RETAILER, the non-sticky foliage makes for a cleaner look and the crisp, vibrant flowers provide higher sell-through. Be sure to use SuperCal POP offered by Sakata to help boost retail sales!

FOR THE LANDSCAPER AND CONSUMER, exceptional garden performance under all kinds of weather—from unexpected late frosts, to rainy-wet cycles and even through the high heat of summer, SuperCal delivers! These self-cleaning plants look beautiful all season long. Deadheading is not needed—ever!

For inspiration and care tips, consumers can check out SuperCalPetunia.com.

SUPERCAL[®]

X PETCHOA | BEDDING

The SuperCal family offers the most heat tolerant series on the market. Exceptional garden performance from early spring through the heat of summer and a full range of colors for quart production and baskets.

- Early blooming, pH tolerance and suitability for cold-frame/low-energy production
- Exceptional performance under all types of weather, from high heat to unexpected late frosts to rainy-wet cycles. Strong rain recovery!
- High resistance to Powdery Mildew and Botrytis

SUPERCAL[®]

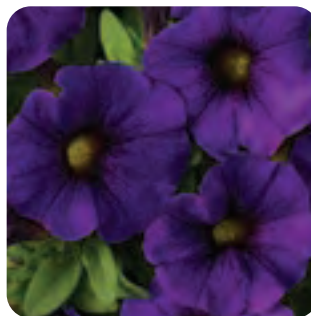

SuperCal varieties feature a vigorous trailing habit covered with an abundance of blooms. Non-sticky foliage provides a cleaner look and strong roots keep leaves greener under stress.

SUPERCAL[®] PREMIUM

SuperCal Premium varieties provide strong vigor with a more controlled semi-mounding, basal-branched habit (compared to most other petunias). Larger flowers and unique colors offer great potential for spring, summer and fall promotions.

VARIETY SPECIFICATIONS ON PAGE 26

MID-SEASON CHEERFUL COLORS / MIXES:	1 / 0

CHEERFUL

- Strong, non-branching stems with deep green pubescent foliage

WHITE

YELLOW

MID-SEASON CHEERFUL

- Ideal for use under warmer temperatures where longer flower stems are desired

MID CHEERFUL WHITE

MATTHIOLA INCANA | CUT FLOWER

- High double type with 90% doubles without seedling selection
- Less flower abortion under hot conditions
- Very straight, strong stems and highly uniform plants

MINIMUM GERM:	80%
SEED FORM:	Raw
CROP TIME:	Cool 11-13 Weeks
STEM LENGTH:	60cm
SPACING:	5x5"
COLORS / MIXES:	3 / 0

MATTHIOLA INCANA | CUT FLOWER

- 5-10 days earlier than Stock Iron
- Easier to get plant height compared to Iron series

MINIMUM GERM:	80%
SEED FORM:	Raw
CROP TIME:	Cool 11-13 Weeks
STEM LENGTH:	60cm
SPACING:	5x5"
COLORS / MIXES:	3 / 0

MATTHIOLA INCANA | CUT FLOWER

Stock Iron is a mid-season variety that sets buds when the plants have a maximum of 10 leaf pairs. Ideally, maintain 59-65F/15-18C days and 50F/10C nights for 3 weeks. If optimum temperatures cannot be achieved, applying long days (14 hours) aids in flower bud initiation.

- Iron is aptly named for the strong stems and robust growth
- An innovative, high-quality stock producing tight flower spikes on stems that do not stretch
- Early-mid season flowering with 55% double flowers

MINIMUM GERM:	80%
SEED FORM:	Raw
CROP TIME:	Cool 13 - 15 Weeks
STEM LENGTH:	60cm
SPACING:	5 x 5"
