SUNPATIENS®

IMPATIENS

Trusted by growers, retailers, landscapers and consumers alike, SunPatiens deliver continuous color in both sun and shade, spring through fall. With over 20 years of proven performance, no other annual brings more reliable flower power. It's no wonder SunPatiens has become one of the most requested brands in today's marketplace.

SunPatiens are now available in THREE distinct series to ensure maximum success, depending on container size, regional location, and target application.

NEW SunPatiens Petite, the latest innovation in the SunPatiens series, is a miniature SunPatiens ideal for mixed containers and hanging baskets.

Compact SunPatiens are ideal for high-density production, patio pots, hanging baskets, and landscape applications.

Vigorous SunPatiens feature a more robust habit that is well-suited for mass plantings and work well in cooler climates where stronger growth may be desired.
